Vineetha B

Frontend Developer

✉ vineethabandi1312@gmail.com   📞 6302462030   📍 Chittoor, Andhra Pradesh

PROFILE

Skilled front-end developer with 1 year of experience in building responsive and user-friendly web applications using React.js, Vite React, and Mantine UI. Proficient in HTML, CSS, JavaScript, and Tailwind CSS, with expertise in collaborating with design and backend teams to enhance user experience. Passionate about writing clean, maintainable code and continuously learning new technologies to improve development efficiency.

PROFESSIONAL EXPERIENCE

Frontend Developer (Freelancer)   09/2024 – present
- Developed scalable front-end applications using React.js, JavaScript, and Tailwind CSS, focusing on high-performance, user-facing features, and optimizing for cross-browser compatibility.
- Migrated static websites to React, integrated RESTful APIs, and optimized state management with Redux to build reusable components and ensure system growth.
- Collaborated with cross-functional teams in a fast-paced environment to enhance UI/UX design, deliver high-quality solutions, and solve real-life problems with an emphasis on customer-focused development.

Frontend Developer   07/2023 – 07/2024
PureCode Software R&D India Pvt Ltd   Hyderabad, Telangana, India
- Developed web applications using modern technologies like React.js, JavaScript, and Tailwind CSS, ensuring scalable design, performance optimization, and adherence to best practices.
- Built scalable systems with a strong focus on security, debugging, and backend integration using Node.js and MongoDB, enabling high-performance and efficient rendering.
- Collaborated with cross-functional teams in a fast-paced environment, providing technical support and actively participating in the process to create high-quality, customer-focused solutions.

EDUCATION

Bachelor of Technology
Rajiv Gandhi University of Knowledge and Technologies, RK Valley, APIIIT

SKILLS

- Javascript
- Typescript
- React JS
- Redux
- Node JS
- Express Js
- HTML CSS
- Tailwind Css
- MongoDB
- SQLite
- Python
- Figma

PROJECTS

Task Management 🔗
- Developed a task management application using React.js, Tailwind CSS, Redux for state management, and Firebase for user authentication.
- Implemented Firebase Authentication for secure user login and utilized localStorage for persistent task storage.
- Designed a responsive user interface with Tailwind CSS and optimized state management using Redux to enhance performance and user experience.

EduExpose 🔗
- Designed and developed the frontend architecture for an educational platform using React.js, HTML, CSS, and JavaScript, ensuring responsiveness and seamless usability.
- Collaborated with backend developers and stakeholders to integrate APIs, maintain data consistency, and implement modular, reusable components for better maintainability.
- Optimized website performance, resolved UI/UX issues, and utilized Git for version control, ensuring timely project delivery and meeting client expectations.

CERTIFICATES

30 Days Code Challenge and 50 Days Code Challenge
Completed 30 days and 50 days code challenge with CCBP 4.0

IBM Data Science Certificate
Certificate earner understands the opportunities data science, analytics, and big data offer across industries.
